

# MONTHLY PERFORMANCE REPORT

## FEBRUARY FY 2018

March 27, 2018

**Operating:** Adjusted Operating Earnings for YTD February FY18 is a loss of **(\$187.3 million)**, (\$74.8 million) unfavorable to Plan, and a decline of (\$94.5 million) versus the prior year. Adjusted ticket revenue is behind Plan by (\$6.9 million) or (0.8%), but is up \$30.4 million or 3.5%, over the prior year. Total expenses were unfavorable (\$53.2 million) or (3.8%) to Plan largely due to increased benefits expense and claims expense, partially offset by lower Ancillary expense.

**Capital remains below planned spend:** Capital Spend (excluding RRIF) is **\$453.6 million**, \$188.8 million or 29.4% favorable to Plan due to Infrastructure, Fleet, Station related, and Information Technology spend. Compared to prior year, total capital was \$17.1 million or 3.9% higher. Less third party work was offset by increased Federal Capital & PRIIA driven by Stations and Real Estate, Fleet, and Infrastructure spend.

**Note:** Going forward, Amtrak will report Adjusted Operating Earnings as the key financial measure to evaluate results, Net Income/(Loss) will continue to be reported for reference. Adjusted Operating earnings represents Amtrak's cash funding needs and is a reasonable proxy for Federal Operating Support needed in line with the appropriation. Route level results (reported on page 7) will reflect the change to Adjusted Operating Earnings, in line with consolidated financials.

**Expenses:** Total expenses were unfavorable (\$53.2 million), or (3.8%), compared to Plan and increased \$105.4 million, or 7.8%, compared to the prior year. The unfavorable variance to Plan was due to increased benefits expense and claims expense, partially offset by lower Ancillary expense. The increase versus the prior year is due to higher benefits, salaries, wages and overtime, claims expense, and other expenses, partially offset by lower Ancillary expense.

**Note:** Going forward, Amtrak will report Adjusted Operating Earnings as the key financial measure to evaluate results, Net Income/(Loss) will continue to be reported for reference. Adjusted Operating earnings represents Amtrak's cash funding needs and is a reasonable proxy for Federal Operating Support needed in line with the appropriation. Route level results (reported on page 7) will reflect the change to Adjusted Operating Earnings, in line with consolidated financials.

**Note:** Adjusted Operating Earnings is defined as GAAP Net Loss excluding: (1) certain non-cash items (depreciation, income tax expense, non-cash portion of pension and other post retirement employment benefits, and state capital payment amortization); and (2) GAAP income statement items reported with capital or debt results or other grants (project related revenue/costs reported with capital results, expense related to Inspector General's office, and interest expense, net).

YTD February FY18 Net change in Cash Flows is \$122.3 million for Consolidated Amtrak, \$150.4 million for NEC, and (\$28.1) million for National Network.

Results are based on the \$527.8 million Continuing Resolution which expired February 8<sup>th</sup>.

NEC operating cash surplus of \$184.1 million is driven by strong seasonal ticket revenue.

Capital expenditures, across both accounts, include funds from prior year grants and are seasonally low as timing is evaluated as new projects begin to ramp up spending.

**Note:** Going forward, Amtrak will report Adjusted Operating Earnings as the key financial measure to evaluate results. Adjusted Operating earnings represents Amtrak's cash funding needs and is a reasonable proxy for Federal Operating Support needed in line with the appropriation. Route level Adjusted Operating Earnings will replace the previously reported "Fully Allocated Contribution/(Loss)" which was based on Net Income/(Loss)

Adjusted Operating Earnings is defined as GAAP Net Loss excluding: (1) certain non-cash items (depreciation, income tax expense, non-cash portion of pension and other post retirement employment benefits, and state capital payment amortization); and (2) GAAP income statement items reported with capital or debt results or other grants (project related revenue/costs reported with capital results, expense related to Inspector General's office, and interest expense, net).

Operating Revenue is defined as GAAP revenue excluding: 1) non-cash revenue items (state capital payment amortization); and (2) GAAP income statement items reported with capital results (project related revenue).

Gross Ticket Revenue is defined as unadjusted revenues from ticket purchases.

Special Trains & Adjustments ("NEC Special Trains & Adjustments", "Non NEC Special Trains & Adjustments", and "Long Distance Adjustments" include non-train revenue & expenses allocated across the National Train Service, these typically include items that cannot be allocated to a specific route but affect all routes in the National Train Service.

Due to the individual PRIIA Sec. 209 contract requirements, the State Supported route view will not match invoices to the states or agencies.
