

MONTHLY PERFORMANCE REPORT

MARCH FY 2018

April 30, 2018

Operating: Adjusted Operating Earnings for YTD March FY18 is a loss of **(\$144.9 million)**, (\$18.8 million) or (14.9%) unfavorable to Plan, and a decline of (\$28.5 million) or (24.5%) versus the prior year. Adjusted ticket revenue is behind Plan by (\$19.1 million) or (1.8%), but is up \$26.3 million or 2.5%, over the prior year. Total expenses were favorable \$1.3 million or 0.1% to Plan largely due to lower wages, Ancillary, and other expense, partially offset by increased benefits expense and claims expense.

Capital remains below planned spend: Capital Spend (excluding RRIF) is **\$547.4 million**, \$252.2 million or 31.5% favorable to Plan as most projects continue to be slow to start. Compared to prior year, total capital was \$24.6 million or 4.7% higher. Less third party work was offset by increased Federal Capital & PRIIA driven by Stations and Real Estate, Fleet, and Infrastructure spend.

Note: Amtrak reports Adjusted Operating Earnings as the key financial measure to evaluate results, Net Income/(Loss) will continue to be reported for reference. Adjusted Operating earnings represents Amtrak's cash funding needs and is a reasonable proxy for Federal Operating Support needed in line with the appropriation. Route level results (reported on page 7) will reflect the change to Adjusted Operating Earnings, in line with consolidated financials.

Note: Amtrak reports Adjusted Operating Earnings as the key financial measure to evaluate results. Adjusted Operating earnings represents Amtrak's cash funding needs and is a reasonable proxy for Federal Operating Support needed in line with the appropriation. Route level Adjusted Operating Earnings will replace the previously reported "Fully Allocated Contribution/(Loss)" which was based on Net Income/(Loss)

Adjusted Operating Earnings is defined as GAAP Net Loss excluding: (1) certain non-cash items (depreciation, income tax expense, non-cash portion of pension and other post retirement employment benefits, and state capital payment amortization); and (2) GAAP income statement items reported with capital or debt results or other grants (project related revenue/costs reported with capital results, expense related to Inspector General's office, and interest expense, net).

Operating Revenue is defined as GAAP revenue excluding: 1) non-cash revenue items (state capital payment amortization); and (2) GAAP income statement items reported with capital results (project related revenue).

Gross Ticket Revenue is defined as unadjusted revenues from ticket purchases.

Special Trains & Adjustments ("NEC Special Trains & Adjustments", "Non NEC Special Trains & Adjustments", and "Long Distance Adjustments" include non-train revenue & expenses allocated across the National Train Service, these typically include items that cannot be allocated to a specific route but affect all routes in the National Train Service.

Due to the individual PRIIA Sec. 209 contract requirements, the State Supported route view will not match invoices to the states or agencies.
