Monthly Performance Report
May FY 2019

June 27, 2019

Financial Summary

Operating: Adjusted Operating Earnings of (**$50.9M)** for YTD May FY 2019 are $62.9M favorable to Plan and an increase of $98.3M over the prior year. Both total revenue ($13.9M) and total expenses ($49.0M) were favorable to Plan. Key drivers for favorable total expenses include benefits and professional fees and data processing.

Capital: Core capital spend of **$861.4M** for YTD May FY 2019 is $233.4M underspent vs Plan and an increase of $81.7M over prior year. The $233.4M underspend is primarily driven by Stations and Real Estate, Infrastructure, Fleet, and Acela 21 related work.

Revenues: Total revenue of **$2,177.6M** for YTD May FY 2019 is $13.9M favorable to the Plan primarily driven by favorable variances for ancillary, food and beverage, and other core revenue. This is partially offset by an unfavorable variance for state supported train revenue. The increase of $76.9M over the prior year is primarily driven by favorable variances across all of the revenue categories.

Expenses: Total expenses of **$2,228.6M** for YTD May FY 2019 are favorable $49.0M to the Plan primarily driven by favorable variances for benefits and professional fees and data processing expenses. The decrease of ($21.4M) from the prior year is primarily driven by one-time expenses in FY 2018 for salaries and benefits associated with a reduction in force and casualty and claims expenses associated with Trains 501 and 91. This is partially offset by a favorable one-time retro wage adjustment.

Note: Amtrak reports Adjusted Operating Earnings as the key financial measure to evaluate results, Net Income/(Loss) will continue to be reported for reference. Adjusted Operating earnings represents Amtrak's cash funding needs and is a reasonable proxy for Federal Operating Support needed in line with the appropriation. Route level results (reported on page 7) reflect the change to Adjusted Operating Earnings, in line with consolidated financials.

Note: Adjusted Operating Earnings is defined as GAAP Net Loss excluding: (1) certain non-cash items (depreciation, income tax expense, non-cash portion of pension and other post retirement employment benefits, and state capital payment amortization); and (2) GAAP income statement items reported with capital or debt results or other grants (project related revenue/costs reported with capital results, expense related to Inspector General's office, and interest expense, net).

FY 2019 vs. Plan: YTD Core Capital spend of **$861.4M** is $233.4M underspent vs Plan, driven primarily by a slow ramp up of spend and delays around Stations and Real Estate, Infrastructure related work, and Fleet overhauls. Additional underspend includes delays and scope reductions for Acela 21.

Total Capital spend of $1,030.9M is $246.5M or 19.3% underspent compared to Plan (this includes Fleet acquisition and Gateway).

FY 2019 vs. Prior Year: While YTD Core Capital spend is only 57.9% of the full year forecasted spend, construction season activity is expected to continue and equipment purchases will progress at a quicker pace. YTD May spend is 10.5% higher compared to prior year.

Ridership: Ridership of **21.07M** for YTD May FY 2019 is lower than the Plan and primarily driven by decreased ridership on the State Supported service line. Ridership is higher than prior year primarily from increased ridership on the NEC and State Supported service lines.

Note: Key Performance Indicators and Other Indicators are representative of National Train Service (NTS) (NEC, State Supported, and Long Distance) results

RASM is defined as NTS (NEC, State Supported, and Long Distance) operating revenue divided by seat miles.

CASM is defined as NTS (NEC, State Supported, and Long Distance) operating expenses divided by seat miles.

Cost Recovery Ratio is defined as NTS (NEC, state supported, long distance) operating revenue divided by operating expenses

Note: Amtrak reports Adjusted Operating Earnings as the key financial measure to evaluate results. Adjusted Operating earnings represents Amtrak's cash funding needs and is a reasonable proxy for Federal Operating Support needed in line with the appropriation. Route level Adjusted Operating Earnings will replace the previously reported "Fully Allocated Contribution/(Loss)" which was based on Net Income/(Loss)

Adjusted Operating Earnings is defined as GAAP Net Loss excluding: (1) certain non-cash items (depreciation, income tax expense, non-cash portion of pension and other post retirement employment benefits, and state capital payment amortization); and (2) GAAP income statement items reported with capital or debt results or other grants (project related revenue/costs reported with capital results, expense related to Inspector General's office, and interest expense, net).

Operating Revenue is defined as GAAP revenue excluding: 1) non-cash revenue items (state capital payment amortization); and (2) GAAP income statement items reported with capital results (project related revenue).

Gross Ticket Revenue is defined as unadjusted revenues from ticket purchases.

Special Trains & Adjustments ("NEC Special Trains & Adjustments", "Non NEC Special Trains & Adjustments", and "Long Distance Adjustments") include non-train revenue & expenses allocated across the National Train Service, these typically include items that cannot be allocated to a specific route but affect all routes in the National Train Service.

Due to the individual PRIIA Sec. 209 contract requirements, the State Supported route view will not match invoices to the states or agencies.
